

There is nothing more annoying than a stump; it's all the hassle of having a tree with none of the benefit. Read on to find out how Karl can remove your stump quickly and efficiently.

There is no tree and/or stump removal too big for Karl and his team. You can have your stump removed directly after your tree removal, or you can have an existing tree stump removed. Karl's efficient stump grinding equipment makes stump removal from anywhere on your commercial or residential property a piece of cake.

Whether your stump is big, small, gnarly, in a tight spot, on a slope or in some other awkward position, we have the solution. Our professional equipment and expertise allows us to remove pretty much any stump you can throw at us (not literally of course). Be sure to let Karl and his team know your plans for the area after the stump removal, so they can plan accordingly.

Call today and set up your stump removal and don't forget to ask how the stump debris can make a great mulch!
